

# PRESCHOOL EDUCATION PROGRAM

The Early Childhood Program at the Macadamia Castle allows for self-directed learning by presenting experiences that will encourage children to actively explore and learn.

It is expected that such experiences will foster discovery and creativity in the children, whilst allowing for continued development of an inquisitive mind and a greater connection with the natural world.

## SPECIAL FEATURES MAKE FUNNY CREATURES

Special features makes funny creatures provides an exciting opportunity for young children to discover, interact with and observe the incredible animals at The Macadamia Castle.

The experience will create a sense of wonder and awareness of the special features of a variety of animals in the park, and the way in which these features contribute to the animals' survival.

## YUM YUM!

Yum Yum! provides an exciting opportunity for young children to discover, interact with and observe the incredible animals at The Macadamia Castle.

There is a mystery to be solved! Follow the clues to investigate the diets of a variety of animals at The Macadamia Castle and solve the mystery of the missing eggs.

The experience will create an awareness of the diets of a variety of animals at The Macadamia Castle, and the way in which the animal obtains their food.
